EDUCATION

2021 - 2024

ADMAS UNIVERSITY

- Computer Science

2023- 2024

ALX

- Software Engineering

SKILLS

- FullStack Development
- Web Developments
- Problem Solving
- Time Management
- Continous Learning
- Devops Engineering
- Critical Thinking

LANGUAGES

- English (Fluent)
- Amharic (Native)
- Arabic (Basics)
- Spanish (Intermediate)

PROFILE

my passion for full stack development, combined with my expertise in C, Python, JavaScript, and Bash scripting, allows me to create innovative, user-friendly, and impactful applications. I am excited to contribute my skills and knowledge to projects that positively impact people's lives and drive the advancement of technology.

Driven by my passion for creating meaningful applications, I constantly seek out new challenges and opportunities to expand my knowledge and skills. I am a proactive problem-solver, always eager to tackle complex issues and find elegant solutions. Additionally, my strong attention to detail ensures that my code is clean, maintainable, and adheres to best practices.

am a dedicated and passionate full stack developer with a diverse skill set encompassing C, Python, JavaScript, and Bash scripting. With a strong background in web development, I am committed to crafting innovative and user-friendly solutions. My primary goal is to leverage technology to build impactful applications that have a positive impact on people's lives.

WORK EXPERIENCE

- FitAddis Fitness Group** 2022 - 2023
Full stack Developer
 - In close collaboration with the FitAddis Fitness Group team, I conceptualized, designed, and implemented the entire website, ensuring that it aligned with the company's brand image and goals. I developed the backend using technologies such as C, Python, and Bash scripting, setting up robust server-side functionalities and databases to handle data storage and retrieval efficiently.
- NovaTech** 2023-2023
Backend Developer
 - As a skilled full stack developer, I had the opportunity to contribute to the success of Nova Techs by developing the backend infrastructure of their website. With my expertise in backend technologies, I played a crucial role in building a robust and efficient system that powers the company's online presence.
 - I developed and integrated various backend functionalities, including data storage, retrieval, and manipulation. I ensured that the website's backend was capable of handling large volumes of data and maintaining optimal performance. By implementing efficient algorithms and database structures, I created a scalable solution that could accommodate the company's growth and evolving needs.
